Introduction

The Finance Trust Bank (FTB) Pillar 3 Market disclosures follow the requirements set forth by Bank of Uganda, with regard to the rules on risk and capital management in financial institutions and which represented a significant advance in the governance of financial institutions.

The objectives of supervising the Basel II requirements are: (i) promote the security and soundness of the Financial System, (ii) maintain capital at appropriate levels, (iii) improve the competitiveness conditions of the financial market, and (iv) establish a more comprehensive approach to risks.
